

QUALITY POLICY

STEELFORM SRL is a reference point for components dedicated to heavy and light industry for 35 years. The primary object is business growth through technological innovation, the development of human resources and compliance with the current legislation.

In order to compete on national and international level with modern organizations, the General Management of STEELFORM S.r.l. has decided to use a Quality Management System compliant with the UNI EN ISO 9001:2015 standard as an organizational model for measuring company performance.

The principle points are:

- Management commitment to continuously improve;
- Measurement of company performance by determining aims and targets consistent with resources;
- Maximum collaboration with the customers, we always try to evaluate in the correct way all requests with the aim to give on time answers and solutions to the issues presented;
- Control and optimization of business processes, minimizing waste and product/process defects;
- To involve all the staff in order to achieve the companies targets;
- To identify training needs of the staff in order to ensure the maintenance of the skills and professional growth;
- To collaborate with the suppliers for improving the quality of the product supplied;
- To promote an approach based on the evaluation of risks and opportunities.

Through this declaration, the Management undertakes to ensure that all collaborators accomplish what is expected from the Quality Management System in order to ensure that the quality of all products supplied by STEELFORM SRL comply with the expectations of the customer and take into account the aims and goals set.

The achievement of the above targets is possible only through the collaboration of the whole staff. It is therefore required that, at every level, their collaborators are informed in order to:

- Guarantee the respect of the procedure, applicable operating instructions;
- Achieve the quality aims set;
- Eliminate inefficiencies through continuous improvement;
- Increase the skills of the employee through continuous training.
