

QUALITY POLICY

STEELFORM SRL is a reference point for components dedicated to heavy and light industry for 40 years. The primary target is the continuous improvement through technological innovation and specific skills by promoting health and safety at work, respect for the environment, energy efficiency, ethics and the quality of the production with a vision to sustainable production.

In order to compete on national and international level with modern organizations, the General Management of STEELFORM S.r.l. has decided to use a Quality Management System compliant with the **UNI EN ISO 9001:2015 standard, the ethic code and the sustainability report** as an organizational model for measuring company performance.

The principle targets are:

- **Maximum collaboration with the customers in order to evaluate all contractual requirements;**
- **Operate in compliance with applicable laws, rules and regulations;**
- **Ensure a healthy and safe working environment;**
- **Improve the efficacy and efficiency of production processes in order to reduce non-conformities;**
- **Involve all personnel on topics regarding quality, health and safety, energy performance and environmental protection;**
- **Promote the use of sustainable resources through the use of green energy and the production through photovoltaic systems;**
- **Operate with ethics and frankness, promoting respect for human rights and the elimination of all forms of violence; guarantee the principles of fairness, equality and equal opportunities, ensuring that there is no discrimination based on gender, age, sexual orientation, religion and culture;**
- **Promote the use of digital systems and reduce paper documentation;**
- **Collaborate with suppliers to implement continuous improvement in product quality supplied;**

Through this declaration, the Management undertakes to ensure that all collaborators accomplish what is expected from the Quality Management System in order to ensure that the quality of all products supplied by STEELFORM SRL comply with the expectations of the customer and take into account the aims and goals set.

It is therefore required that this policy have to be understood, implemented and common at all company levels.
