

Job number: MCU453984
Date: 16/04/2019

Steelform S.r.l.
Via Max Piccini, 16
33050 Rivignano (UD)
Italy

Dear ,

CONFORMITY OF PRODUCTION

Please find attached a copy of your Conformity of Production Certificate.

Conformity of Production Clearance has been granted as per the clearance dates listed on the certificate. 1 Month before your CoP expiry date, please submit electronic copies of the following documents:

Current Control Plans
Change Control process or procedure (specific to Type Approval)
ISO 9001 or TS 16949 Certificate, (must be UKAS/IAF recognized) or If not ISO/TS accredited (or ISO/TS is non-UKAS/IAF recognized) a full Quality Manual
Method used to access type approval legislation
If you are using an Assembly Plant(s) that are not part of your Company, then they will need to submit an Assembly Plant Statement, accepting that no changes or modifications to the product will be made without prior consent from the Approval Holder and the Approval Authority. This must be on headed paper and include both the Approval Holder & Assembly Plant names and addresses, and it must also be signed and dated by the Assembly Plant

An audit visit may however take place before or within the period of clearance, at a mutually convenient time/date. Under our procedures we retain the right to make monitoring visits to witness the system in operation, which are chargeable.

In addition, we may purchase type approved vehicles and components and check them against the relevant Regulations and Directives.

It should be noted that Conformity of Production clearance relates only to manufacturing systems and procedures. Product approval does not exist until the appropriate type approval certificate has been issued.

If you change any details in relation to your Conformity of Production clearance, we must be notified immediately. Failure to do so could result in your Type Approval becoming invalid. This includes any addresses and contact details we hold for you.

Yours sincerely

Kevin Bridges – Technical Manager
